INTRODUCTION

As an aspiring web developer, I bring a solid foundation in HTML, CSS, and JavaScript, backed by relevant coursework or a degree in information technology. My commitment to hard work is reflected in my proactive approach to gaining hands-on experience, contributing to projects, and continuously refining my skills. I embrace challenges with resilience, recognizing each opportunity as a chance to grow. Eager to stay current in the evolving field, I actively seek knowledge about emerging technologies and design trends, positioning myself as an adaptable and forward-thinking contributor in web development.

WORK EXPERIENCES

Freelancing on UPWORK   **2023 - till now**

Design and Layout

- Create visually appealing and user-friendly landing page designs
- Develop responsive layouts that adapt to different screen sizes and devices
- Ensure consistent branding and messaging across the landing page

Testing and Optimization

- Work closely with clients, designers, and other stakeholders to understand their requirements
- Provide regular updates and communicate any challenges or changes
- Deliver the landing page on time and within budget
